

LUKA GULEDANI

Georgia ♦ Zugididi

Full-stack Engineer

♦ lukaguledani23@gmail.com ♦ +995 557 463 444 ♦ <https://www.linkedin.com/in/lukaguledani/> ♦ <https://github.com/Lussskki>

SUMMARY

· Self-taught and passionate about programming since 2020. I enjoy exploring languages like Python and JavaScript independently, along with proficiency in HTML/CSS/JS. My curiosity drives me to excel in both front-end and back-end development.

Age: 24

Languages: Georgian, English, German.

Tech stack: JavaScript, Node.js, Python, Fast API, HTML/CSS, Linux.

MY PROJECTS

Amazon Website Clone

2023

Back-end Project

- Developed a clone of the Amazon e-Commerce website.
- Implemented server-side functionality for user registration and login, as well as cart management.
- Used MongoDB as the database for the project.
- Skills: Node.js, Express.js, REST APIs, MongoDB.
- Project Repository: <https://github.com/Lussskki/amazon-clone>

Portfolio

2021

Front-end Project

- Studied and worked myself on my first portfolio
- Skills: HTML / CSS / JS
- Project repository: <https://github.com/Lussskki/portfo>
- Live address: <https://symphonious-mousse-69ee23.netlify.app/>

EXPERIENCE

Startup - Fundhance

2023 sep-2024 aug

Junior Back-end Engineer (Intern), Location - Hungary, Budapest, Remote

- Develop a system to randomly assign usernames and passwords based on account usage status, requiring interpretation of yes / no responses.
- Implement a system to differentiate paper account and real money profit and loss (PnL), optimizing the accuracy of financial reporting in the Microsoft excel database.
- Working on using RESTful APIs for streamlined data management.
- Learning Python and modules to obtain the correct REST API.
- Skills: API Development, Software Development, Back-end engineering, Java, Internship, Python, Microsoft Excel, Google Docs.
- Website address: <https://www.fundhance.co.uk/>

Makers LLC

2023 apr-2023 sep

Junior Front-end Engineer (Intern),

- Founding bugs for start project. helping AI and correct it.
- Increasing load the website pages and searching front bugs, fixing with mentor.
- Skills: Front-End Development, Next.js.
- Website Address: <https://consultida.com/>
- Project Repository: <https://github.com/Lussskki/INTERNSHIP-CONSULTIDA>

Academy of Digital Industries - Academy

2022 feb-2023 feb

Web Programming Course (JS/React/Node),

- Developed MVC-ecommerce store backend structure, used services, routes, middleware, db and controllers.
- For middleware used JWT Authenticator, for login and signout opportunity.
- Database used PostgreSQL for info about clothes, MongoDB for login and signout.
- Skills: PostgreSQL, JSON Web Token (JWT), Node.js, Express.js, REST APIs, MongoDB.
- Project Repository: <https://github.com/Lussskki/MVC-DESIGN-E-COMMERCE.PROJECT-NODE>

Bitcamp - Coding Bootcamp

2020 oct-2023 jan

Junior Front-end Engineer

- Building projects using HTML / CSS, making projects such as order summary, qr-code, equilibrium-3429.
- I worked with a mentor who helped me write and correct the code.
- Skills: Node.js, Linux, GitHub, HTML, NoSQL, Cascading Style Sheets (CSS), JavaScript.
- Project Repository: <https://github.com/Lussskki/BITCAMP101-PROJECTS>
